- What is the main idea of the paragraph? (*What about the topic?*)
- *Jacob's routine to visit the pet store.*
- Why is it important to find the main idea of a paragraph when you are asked to rearrange sentence order?
- *Knowing the main idea helps keep the focus of the paragraph clear.*

7. Which option is the best reason for choosing C as the correct answer.

1. "The scene" is the direct object, so it needs to follow the verb.
2. It sounds best to place "the scene" before "has" and after the intro info.

- Which sentence ***usually*** contains the main idea of the paragraph?
- *The topic sentence.*
- Which sentence did you think was the topic sentence? What led you to that conclusion?

Flip to your green Do Now.

- Let's share out your findings.
- As we work through this review, take any notes you need to help keep your mind fresh for Friday's exam.

Circle all the sequencing words.

- (1) He then walks another five blocks towards the river. (2) He usually takes the No. 27 bus downtown. (3) Ever since he was twelve, Jacob has visited the pet store to look at pet fish. (4) Jacob does not plan to ever change this routine.

Why does it help to notice these sequencing words?

- Why is it helpful to identify pronouns and their antecedents?
- *Pronouns must be clearly connected to their antecedents. If there isn't an antecedent, then that sentence is not ordered correctly.*

- **GUIDED PRACTICE:** *Use all the information from the do now to complete the next two paragraphs.*
- *You MUST put the MI (main idea) in the margin, circle sequencing words, and box pronouns.*
- Complete the first paragraph and its corresponding questions with your partner.
- Then, do the next paragraph and questions on your own.
